

President's Report
Retrosheet meeting
August 5, 2010

- The last year has seen the completion of the box score project from 1920-1949 and the extension of pbp data back to 1950.
- Digitization continues on earlier seasons and we have data in hand as far back as 1911. Some of these seasons will be added to our box score list within the next year.
- Our bank balance continues to be very healthy and we do not have any large expenditure planned. Donations continued to come in from our friends, often accompanied by very nice praise for our site. It is wise for us to maintain our reserve. Therefore, donations are hereby solicited to help us improve our situation.
